

REMARKS

The Notice of Drawing Inconsistency with Specification dated September 26, 2005, stated that an inconsistency existed between the Drawings filed on December 23, 2003, and the Brief Description of the Drawings in the specification. In particular, the Notice stated that Figure 34 was listed in the Brief Description of the Drawings in the specification, but not contained in the Drawings. The Notice also stated that Figures 7C, 7D and 34A were contained in the Drawings, but not listed in the Brief Description of the Drawings in the specification. Responsive to the Notice, the Applicants submit herewith amendments to the specification, which correct these informalities as follows.

In the amendments to the specification, a description of Figures 7C and 7D are added to the Brief Description of the Drawings Section. Reference numeral "34" has been changed to --34A--, and thereby overcomes the informalities with respect to reference numerals 34 and 34A specified in the Notice. No new matter is added. The Applicants respectfully submit that the Drawings are consistent with the Brief Description of the Drawings in the specification.
